FYI - See below. This bothers me only because others don't get to do work load balance for me except for you. If they get the property sold by the 31st, we should revisit the RP finishing the work despite the decision currently made.

Thanks

Gloria:

Please talk to Bergner on March 31 and find out if he was able to sell the facility and close. I know that Pam decided for us to take it over but if it actually closes, I am going to ask my management to push the issue of allowing the PRP to complete. This is likely to be much more costly for us to do the work than the PRP because of their history on the facility. Our contractors have no history, and we would have to basically reassess before we could do the cleanup.

Thanks
